Re: WC 05-299; Maskina Communications, Inc.; Request for STA Renewal

Dear Ms. Dortch:

Maskina Communications, Inc. ("Maskina Communications" or "Company"), pursuant to Section 214 of the Communications Act of 1934, as amended, hereby requests renewal of its Special Temporary Authority ("STA") granted on February 13, 2006 to continue providing service to customers pending consideration of an application for transfer of control filed on October 24, 2005 in the above reference docket. The STA is currently set to expire on February 7, 2007.

As detailed in the underlying application, on December 2, 2004, Transcom Holdings, Inc. (f/k/a Transcom Holdings, LLC) and Maskina AS (now known as Vyke AS) consummated a transaction whereby Maskina AS purchased a 100% ownership interest in Transcom Communications, Inc. (now known as Maskina Communications). On June 27, 2005, 100% of the shares of Maskina AS were purchased by a company by the name of Tower PLC (now known as Vyke Communications, PLC).¹ However, the parties to the transaction did not seek

¹ The full history of the transactions is as follows:

On April 30, 2004 Transcom Holdings, LLC, a Texas limited liability company executed Articles of Conversion for its conversion into Transcom Holdings, Inc., a Texas corporation. On May 6, 2004 the Articles of Conversion were filed with the Office of the Secretary of State of Texas. As a result of the conversion, Transcom Holdings, Inc. became the 100% owner of Transcom Communications, Inc., the licensee.

By Amended and Restated Stock Purchase Agreement dated November 2004, Maskina AS acquired 100% of the stock of Transcom Communications, Inc. from Transcom Holdings, Inc. The transaction closed on December 2, 2004 and is the subject of the Application for Consent to Transfer of Control of Maskina Communications, Inc., filed on May 31, 2005; the Amendment to Application for Consent to Transfer Control of Maskina Communications, Inc., filed on September 26, 2005; the Domestic Application for Consent to Transfer Control of Maskina Communications, Inc., filed on October 24, 2005; and the Supplement to Application for Consent to Transfer Control of Domestic 214, filed January 3, 2006.

the Commission's consent prior to these transfers of control and requested an STA originally as part of a plan to correct any deficiency which may have resulted from this oversight. Since the application is still pending and the STA is due to expire shortly, a renewal of the STA is appropriate at this time.

Grant of this STA is in the public interest as it will allow Maskina Communications to continue to provide communications service to its customers. Perhaps even more importantly, as Maskina Communications is a wholesale telecommunications services provider, discontinuance of the Company's service could result in a widespread loss of telecommunications service to end user customers of companies other than Maskina Communications. Such discontinuance could affect thousands of consumers. Many of the companies which rely on Maskina Communications for wholesale service provide service to end users on a prepaid basis. Such consumers often have lower incomes and fewer options available for the purchase telecommunications service than the options which may be available to the public at large. In addition, since such customers have already purchased service, a service disruption may result in a situation in which they can not be made whole, even if refunds for lost service are available.

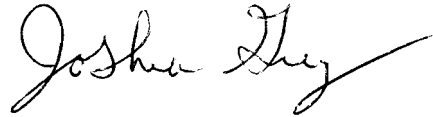

On January 11, 2005, Transcom Communications, Inc. changed its name to Maskina Communications, Inc. A letter was filed at the Commission on April 5, 2005 informing the Commission of this change.

On June 27, 2005, Tower PLC acquired a 100% direct ownership interest in Maskina AS pursuant to a reverse take-over or reverse merger, and therefore 100% indirect interest in Maskina Communications, Inc. That transaction was the subject of the Notification of Pro Forma Transfer of Control of Maskina Communications, Inc., filed on October 6, 2005.

On November 1, 2005, Maskina AS changed its name to Vyke AS. The change was registered with the Norwegian Register of Business Enterprises on December 14, 2005. A notification of name change letter was filed with the Commission on August 28, 2006. On September 27, 2006, Tower PLC changed its name to Vyke Communications PLC. The change was registered with the Registrar for Companies in England and Wales on October 2, 2006. A notification of name change letter was filed with the Commission on October 24, 2006. Finally, on December 18, 2006 a Notification of Pro Forma Transfer of Maskina Communications, Inc. was filed with the Commission regarding the April 30, 2004 conversion of Transcom Holdings, LLC to Transcom Holdings, Inc.

Maskina Communications acknowledges that the renewal of this STA will not prejudice any action the Commission may take on the underlying application seeking Commission consent to the transfer of control. Maskina Communications further acknowledges that this STA can be revoked by the Commission upon its own motion without a hearing.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Joshua T. Guyan", with a long, sweeping horizontal line extending to the right.

Thomas K. Crowe
Joshua T. Guyan,
Counsel for Maskina
Communications, Inc.

Enclosure (Certification)
